About us

ABOUT US

Academy Of Data is a premier training institution dedicated to equipping professionals with the skills and knowledge needed to harness the power of data. Our expert-led courses combine theoretical knowledge with hands-on projects, ensuring you gain the practical skills that are essential for the industry. In 2022, we became the **first institute to launch a comprehensive Data Engineering program** in India, and we have **successfully placed 1,200 students** since then.

Whether you are looking to start a new career or advance in your current role, the Academy Of Data offers well-defined courses, including special bridge course sessions tailored for freshers and graduates from non-IT sectors. Our programs are designed to upskill ETL developers, database administrators, application developers, SAP professionals, QA engineers, and full-stack developers, providing you with the opportunities to advance and grow in your career.

Our comprehensive training programs cover a wide range of topics, including Azure, AWS, and Data Science. Focusing on real-world applications and the latest industry trends, we ensure you are well-prepared to meet the demands of the data-driven world.

What's more, we offer a unique **100% placement guarantee for Data Engineering**, providing you with the confidence to take the next step in your career.

WHY ACADEMY OF DATA

Expert Faculty:

Learn from experienced industry professionals with real-world expertise.

Hands-On Learning:

Engage in practical projects that mirror real-world scenarios.

Cutting-Edge Curriculum:

Stay ahead with our courses that reflect the latest industry trends and technologies.

100% Placement Guarantee:

Secure your future with our 100% placement program for Data Engineering, providing job opportunities and career support.

Career Support:

Benefit from comprehensive career services, including resume building, mock interviews, and job placement assistance.

Personalised Guidance:

Receive personalized guidance and answers to your questions from our team of business professionals.

Course Certificate:

Successful students get a course certificate from Academy Of Data.

Flexible Learning Options:

Enjoy the convenience and adaptability of recorded, live, and personalised industry sessions while learning.

Internship Assistance:

Gain real-world experience through our internship assistance program, offering hands-on projects and industry exposure.

24x7 Support

Whether you're a beginner or looking to advance your skills, we help you grow and achieve your career goals.

DATA ENGINEERING

YOUR JOURNEY TO DATA MASTERY BEGINS HERE

AZURE DATA ENGINEERING WITH DATABRICKS

Master the skills needed to design, implement, and manage scalable data solutions on Microsoft Azure and Database. Gain hands-on experience with data pipelines, warehousing, and advanced analytics through practical projects and exercises.

(COURSE DURATION: 3 MONTHS)

WHAT YOU'LL LEARN?

Azure Cloud

SQL

Python

Gen AI

Apache
Spark on Databricks

Azure
Data Factory

AWS DATA ENGINEERING WITH SNOWFLAKE

Leverage the power of AWS cloud computing and Snowflake's data platform to create a unique skill set that enables efficient data harnessing, optimized workflows, and data-driven business success. Integrate these two leading technologies to drive insights and maximize the value of your organization's data.

(COURSE DURATION: 3 MONTHS)

WHAT YOU'LL LEARN?

SQL
Database

Python

AWS Cloud

AWS Glue

Snowflake
Dataplatform

OUR PLACEMENTS

WHAT OUR ALUMNI SAYS

Netaji Sai Akash

Placed at Quant Data and AI Services Pvt. Ltd.

Joining the Academy of Data transformed my career path. The Azure Data Engineering program with Databricks offered immersive, hands-on learning. Real-world projects and expert mentorship sharpened my technical skills and boosted my confidence. I stepped into the industry with confidence and achieved success.

Thejesh N

Placed at PROLIM Corporation

The Academy of Data helped me master Snowflake and cloud data tools with ease. The program's practical approach made complex concepts easy to apply. I gained the skills and confidence to enter this field from scratch. The journey shaped me into a skilled and job-ready professional.

Mastan

Placed at Microsoft

The Academy of Data gave me the skills to thrive as a Data Engineer. The Azure-focused curriculum was rigorous, practical, and aligned with industry needs. Hands-on labs and real-world projects built my technical foundation. I am grateful for the support of the Academy of Data!

Balramsujil CP

Placed at SYNTAX

The Academy of Data was the launchpad for my tech career. Its structured curriculum, guidance, and placement support made all the difference. Practical learning improved my data engineering skills step by step. I began my career journey with clarity and confidence.

Niroop

Placed at DataClad

With the growing demand in the field of data and many aspiring to enter this domain, coupled with the limited resources currently available, the Academy of Data steps in to provide the right guidance and an upskilling platform, led by specialized data professionals.
